Tami,

Hi. I'm sorry I didn't get back to you sooner, but unfortunately, you were correct that because of the late notice on Thursday afternoon, there wasn't anyone who would have been able to attend from NMFS. If there are plans for future meetings please let us know. I am copying Sue Walker of our staff (she is our Hydropwer coordinator and POC on climate change issues for our Division) and Doug Limpinsel (our POC for salmon issues in Bristol Bay). I am also copying Phil Mundy, Director of our Auke Bay Lab, and some of his staff that may be interested in any future meetings.

Thank you,
Jeanne hanson

Hi Jeanne, this is short notice, but if you are around tomorrow and want to join in on this conversation please come by. Also, if there is anyone you want to forward this to that might be interested please feel free.

The meeting is at 9 in our EPA large conference room.

Thanks! Tami

=====

Dear Tami,

Below is the introduction email with materials for the meeting on Friday.

Please feel free to forward this email to whomever you think would be interested in attending on Friday morning.

Thank you so much,
Rebecca

I am an AAAS fellow hosted by the EPA, and looking

into climate change impacts on sockeye salmon in Alaska. Joe Ebersole, of the EPA, and I have been working on a conceptual diagram and literature review of climate change impacts on sockeye salmon in Bristol Bay. We are putting together a meeting in Anchorage for Friday August 10.

We are organizing a meeting to discuss climate change impacts on sockeye salmon, and we are inviting those of you with expertise in this area. We are hosting a meeting on Friday, and hope that you would be available to provide feedback on the work we have done thus far. Would you or someone from your group be interested in meeting with us on Friday August 10? There is a group getting together from 9am-12 pm on Friday August 10, and I really hope that you are able to join the discussion.

If you have any questions or want to talk a bit, please feel free to contact me. I look forward to hearing from you.

Sincerely,
Rebecca
